

Leadership Development Program

Leadership Development Program Prepare your students to become the next great leaders of this new century! This innovative program was developed over the past seven years and contains two parts.

The Leadership Skills Inventory allows students to assess themselves in nine key areas of leadership. The Leadership Manual provides 125 exciting instructional activities designed to help young people enhance their leadership potential in each specific area. These activities are not easy for a teacher or leader to organize, and most do not require any special materials. The Leadership Skills Inventory can also be re-administered to measure leadership growth.
