

## Reeds Western Almanac 2011. Edited by Andy Du Port, Rob Buttress

The Reeds Western Almanac covers the coastline from Cape Wrath to Padstow as well as the whole of Ireland, and is ideal for any boater lucky enough to cruise and race in the superb waters off the coast of Western Scotland, Ireland or Western England. It offers ready access to essential navigation information by virtue of its clear layout and user friendly format. Completely updated for 2011, topics include pilotage, tides, safety, navigation, radio, lights, waypoints, weather forecast information, communications, Mayday and distress procedures. The spiral binding allows the Almanac to be opened flat on the chart table and the large type size and clear layout makes information easy to read even in adverse conditions. It is the complete guide for both Irish and Scottish mariners as well as those cruising the UK west coast. Includes a free Reeds Marina Guide. Also available: free supplements of up to date navigation changes from January to July available from [www.reedsalmanac.co.uk](http://www.reedsalmanac.co.uk). There are some things I would not go to sea without - Reeds is one of them. Sir Chay Blyth
