

Id Rather Not Be Dead

Drew McKinney never liked living in Pine Bridge, North Carolina, but she liked it a lot better than being dead there. No way does she want to haunt this stupid hick town for the rest of forever. She doesn't want to haunt anywhere if she can help it. The whole dying thing knocked Drew back in time several weeks, so she's got a shot at saving herself from Hell in Appalachia if she can figure out why she died. Unfortunately, not only is she clueless about what killed her but there's a soul-eating fog after her, the ruler of the ghost realm is interfering in her afterlife, and the only living person Drew can turn to for help is Cooper Finnegan, who is hands down her least favorite person on the planet.
